Graduate Success Story

**Carol Jones– Veterinary Assistant Program
Pima Medical Institute, Las Vegas, Nevada
Submission date: June 2009**

I am a 47 year old single woman who has always worked in whatever job I could find just to keep a roof over my head. I had recently lost my job and was at a loss as to what to do. My friends all knew of my love of animals and my special abilities to work with them, and they encouraged me to try to get into the Veterinary field. I spent 6 weeks trying just to talk to a person at the local community college and was running into one brick wall after another. Someone suggested Pima Medical Institute (PMI), but I was adamant they wouldn't be able to help me either. My friend dragged me to PMI anyway, and when I walked in and asked about their Veterinary Assistant program, I was promptly given to an enrollment counselor. By the next day (24 hrs) she had me set up with my student loan and classes starting in one week! I couldn't wait to begin.

Now, I am FINALLY doing what I should have done 30 years ago, but just never had the chance. What a joy life is now. Thank you PMI for giving me a chance to do what I've always wanted to do and for making my childhood dream come true. I LOVE my new career and each day is special to me!

Pima Medical Institute, Las Vegas, Nevada, holds institutional accreditation by ABHES
