Graduate Success Story

Dennis LaValle – Radiography Program
Pima Medical Institute, Seattle, Washington
Submission date: June 2009

Getting my associate degree in Radiography at the Pima Medical Institute (PMI) campus in Seattle has been my best career move to date. After two short years I am now nationally certified as a Radiologic Technologist and working in Miami, FL. I am living my dream. PMI provided outstanding instructors, class structure, and clinical experience to prepare me for working anywhere in the U.S. The best part of attending PMI was learning with my classmates. I have made friends for a lifetime and established a new network of imaging professionals and colleagues that I can depend on. One day I will be in a supervisory position and I would not hesitate to hire a PMI alumni.

Pima Medical Institute, Seattle, Washington, holds institutional accreditation by ABHES
