Graduate Success Story

Jennifer Yslas – Aguirre – Dental Assistant Program Pima Medical Institute, Tucson, Arizona

I was just 17 years old when I took the advice of my mom (a graduate of PMI) to check out Pima Medical Institute. By the time I got my high school diploma, I had already experienced the joy of motherhood. My boyfriend and I made the decision to provide everything we could for our daughter, including a secure future. Balancing life, parenthood, school and work was not easy, but we made sacrifices to work different schedules, cut back on necessities and take the city bus, so we could make ends meet.

I was 19 years old when I graduated with honors as a Dental Assistant. After securing a job at a local dental office, we were able to purchase our first home. I love my career as a Dental Assistant and currently work at a Periodontal Office as a Clinical Supervisor/Surgical Assistant and I make a wonderful salary. I have taken the skills I've acquired at PMI, and have turned them into a career that can take me anywhere I want to go.

Pima Medical Institute, Tucson, Arizona, holds institutional accreditation by ABHES
