My name is **Amber Remer**. I was a 20-year-old single mother of two, barely scraping by, when I decided to go to Pima Medical Institute's Mesa campus for an associate degree in radiography. The teachers were wonderful and caring. I was using every kind of government assistance I could to get through school when my teachers informed me about some additional help through Pima. They provided a student food bank and even set up a toy drive to help their students for Christmas. They never failed to help me when I needed it. I graduated in 2007 and got a job immediately in my chosen field at Banner Gateway Medical Center. Since then, I have been able to make my way in the world and raise my children on my own. My next goal is to obtain a bachelor's degree. Pima Medical Institute completely changed my life, and I will be forever grateful.

Pima Medical Institute, Mesa, Arizona, has held institutional accreditation by ABHES since 1986.
